

Compatible with 1384B, G300B, and G500B Series

The 1384B, G300B, and G500B systems work best when installed with a standard hood with open concept on either side of the fan/light.

The Broan 40000, 41000, 42000, and 43000 hood series are excellent examples for the Guardian 1384, G300B and G500 systems.
